2005 HELP Directory

Northwest Territories Health and Social Services

February 2005

Message from the Minister

I am pleased to bring you the 2005 HELP Directory.

Since it was first published in 1998, the HELP Directory has become a valuable resource for health & social services professionals and people who work in related fields. The book includes contact information for government, Aboriginal and community groups, especially those with a health and social services mandate. This new directory updates the 2001 edition with current contact information.

I hope you find it useful in finding appropriate community resources to meet your personalized needs.

If you need to change your contact information for the next edition, please call the Department's communications unit at (867) 920-8927. You can also use this number to order extra copies of the directory.
